

NOTE TO ANY INTERESTED READERS:

I have united the 43 articles of "ARMAMENTS OF THE TROOPS OF THE ROYAL HOUSEHOLD, 1788-1931" in a single document, in "book" form, with the photographs somewhat of a lighter tone, as some readers felt, rightly so, that they were too dark.

It was my intention to edit the work in the Web, but due to its "weight" (6,831 KB) my Web Master advises against it; If some of you are interested in having the work in this format please request it by email and I will forward it, as an "attached document", to your email address, as I know from experience that it can be successfully transmitted in this manner.

Best regards,

Juan L. Calvó
